

# A.A.S.

Associate of Applied Science  
(Two-year program)

## TECHNICAL STUDIES

### *Why Technical Studies?*

This custom-designed program allows individuals to combine elements of various disciplines in a meaningful and logical sequence that meets their career goals. The Associate in Technical Studies addresses a recognized need for business and industry to attract highly trained workers with a variety of skills and to retain current workers.

Individuals may pursue this program of study for career advancement or increase in job responsibility or salary. Students work with an advisor to identify career goals and plan a program of study. Students enrolled in this program may earn Credit for Prior Learning for previous occupational experience.

Upon successful completion of the required courses, students will be awarded a Certificate or Certificate of Applied Science in their initial technical field of study and an Associate of Applied Science degree in Technical Studies.

### *This program will provide you with:*

- Demonstrate contextually germane communications skills (oral and written)
- Use germane mathematics in problem solving and to communicate quantitative information effectively
- Demonstrate the skills, knowledge, and competencies of the certificate earned in the process of completing the AS in Technical Studies.
