

A.S.N.

Associate's Degree
(Two-year program)

ASSOCIATE OF SCIENCE IN NURSING

Why Nursing A.S.N.?

The Nursing Program (72 credit) is accredited by the Accreditation Commission For Education in Nursing (ACEN)*, fully approved by the Montana State Board of Nursing, and has been designed to prepare graduates who will be eligible to apply for RN Licensure. Upon completion of the program, graduates will be able to give direct patient-centered, safe, and effective care. They may function in cooperation with other members of the health team in hospitals, nursing homes, doctors' offices, and other health agencies.

Note:

This program has specific entrance requirements. Before applying to the nursing program, students must complete the Pre-requisites nursing course of CHMY 121/122 Introduction to General Chemistry w/ Lab, BioH 201/202 Human Anatomy & Physiology I w/ Lab, M140 College Math for Healthcare and WRIT 101 College Writing I. The nursing program uses a formal process when selecting nursing students. Pre-Nursing is a classification used for students who were not selected for the nursing program.

*The Associate Nursing Program at Miles Community College located in Miles City, MT is accredited by the: Accreditation Commission for Education in Nursing (ACEN)
3390 Peachtree Road NE, Suite 1400

NURSING

Degree Requirements

Program course requirements are presented in sequence. Part-time students and others who cannot follow this sequence should check Course Descriptions to determine pre-requisites, and should consult their advisor regarding the order in which to take courses. This program is designed to meet educational requirements for a specific professional license or certification that is required for employment in an occupation. Miles Community College has not made a determination as to whether this program meets the education requirements for licensure in states other than Montana.
