Insect Investigation

Thursday, July 2, 1-2:30 Room (FREE)

Room 113

Explore the wonderful world of insects with staff from Fish, Wildlife & Parks! Learn about the roles bugs play in the animal world and in agriculture. Go on an insect "expedition" to collect insects, and build your own bug to take home - no care required! Designed for kids ages 6-10. Registration limited to: 14

Fun with Frogs and Toads (FREE)

Room 113

Wednesday, July 8, 1-2:30

Learn by "leaps and bounds" about frogs and toads with Fish, Wildlife & Parks staff! Discover how frogs and toads are different, and explore their lifecycles - from eggs to tadpoles to adults. Also, make a "toad abode" from a clay pot and take it home to see if toads will visit you! Designed for kids ages 6-10. Registration limited to: 12

Skins, Scat and Skulls (FREE)

Room 113

Saturday, July 18th from 1pm-3pm

Discover the animals, small and large, that call Eastern Montana their home. Join the Makoshika State Park Ranger Maribeth Ault as she shows and explains hides, skulls, and yes, even poop, from bobcats, deer, rabbits and more! Learn the significance and importance of certain features seen on these animals and stick around to get a feel for yourself! Registration limited to: 15
